► Save More Than \$300 on Energy Costs

ENERGY STAR® certified dehumidifiers use 15% less energy than a standard model.

What does a dehumidifier do?

- ✓ Pulls moisture from the air to discourage mold, mildew, dust mites and bacteria from forming in your home.
- ✓ Removes the same amount of moisture from the air as a similarly-sized non-ENERGY STAR® certified unit.

For the most efficient dehumidifier, choose a model that is appropriate for your room's size and moisture level.
