

Get reliable hot water for less.

Incentives for high-efficiency commercial water heating solutions.

Did you know that water heating makes up about 20% of natural gas use in commercial spaces? By using incentives from Rhode Island Energy to upgrade to high-efficiency equipment, you can lower your operating costs while saving money and energy year round.

Benefits of high-efficiency water heating

- Longer life span and less maintenance than traditional systems
- Regulates on-off cycles more efficiently so you use less energy
- Conserves energy and reduces your environmental impact

Who qualifies for incentives?

To qualify, your business must have a commercial or industrial natural gas account with Rhode Island Energy. Additionally, you must not already be receiving an incentive for your water heating equipment through another program.

Commercial Natural Gas Water Heater Incentives			
Water Heater Type	Input Rating	Required Efficiency	Customer Discount
Storage	≥ 75 Mbtuh	Thermal Efficiency ≥ 94%	\$2.00/Mbtuh
Tankless	< 200 Mbtuh	Energy Factor ≥ 0.94 or Uniform Energy Factor ≥ 0.91	\$1.00/Mbtuh
Volume (Domestic Hot Water Boilers)	≥ 75 Mbtuh	Thermal Efficiency ≥ 94%	\$2.00/Mbtuh
Indirect	N/A	N/A	\$200/unit

Additional Equipment		
Equipment	Required Efficiency	Customer Discount
Gas Pool Heater	Thermal Efficiency ≥ 84%	\$2.00/Mbtuh
High-Speed Clothes Washer	≥ 200G	\$4.00/lb. capacity

How to participate

- 1. Ask your contractor to contact a participating distributor.**
Find a full list of participating distributors at RIEnergy.com/Business.
- 2. Work with your contractor to provide accurate information.**
An installation address for your equipment must be provided by your contractor to the distributor. Instant point-of-sale discounts are provided directly to distributors by the sponsors of Rhode Island Energy, and contractors are expected to pass those savings along to you.
- 3. Install your new equipment and start saving!**
Enjoy your high-efficiency upgrade in your business.

Get started right away.

For more details and to get started, visit RIEnergy.com/Business or contact Energy Solutions at heat-ne@energy-solution.com or **617-440-5468**.

Note: Sales that total 10 or more units OR \$8,000 or more in total initiative incentives must receive pre-approval to guarantee the incentives.

Distributor should discount the equipment at the point of sale of a qualified purchase. On-site verifications may be required. Distributor should encourage the purchasing contractor to pass along the instant discount to the end-use customer.
