

Offered in cooperation with Penn College of Technology

EARN THE ESSENTIAL CREDENTIAL IN ENERGY EFFICIENCY

PROFESSIONAL TRAINING AND CREDENTIALING IN ENERGY EFFICIENCY SINCE 1996

BOC LEVEL II VIA ZOOM

Building Operator Certification (BOC®) is a professional credential in energy efficiency that employers across the country recognize and reward. Today, thousands of BOC-trained engineers and technicians are on the job, saving energy and money. Building operators reduce their annual utility costs by instituting energy conservation practices they learned through BOC training and certification.

Classes will be held 9:00am -4:00pm on the dates shown below.

BOC 2001-A / Building Scoping for Operational Improvement	4/23/25
BOC 2001-B / Building Scoping for Operational Improvement	4/30/25
BOC 2002 / Optimizing HVAC Controls for Energy Efficiency	5/7/25
BOC 2003 / Introduction to Building Commissioning	5/14/25
BOC 2004 / Water Efficiency for Building Operators	5/21/25
BOC 1014 / Electrification and Building Operations	5/28/25
BOC 2005 / Project Peer Exchange	6/11/25

REGISTRATION DEADLINE FOR THIS COURSE IS MONDAY, APRIL 14, 2025

LOOKING FOR MORE INFORMATION? Visit theboc.info or call **877.850.4793**

Successful completion of the BOC Level II training program will result in a Level II BOC Training Certificate of Completion. To become BOC-Certified, you must register for and pass the Certification Exam. For more information contact us at bocinfo@theboc.info
